**Main Contractor:** R G Carter (Norwich)

**Client:** Norfolk & Norwich University  
Hospital

**M & E Consultant:** Bower Fuller / WSP

**Architect:** Frank Shaw Associates Ltd

**M & E Value:** £800K

## Norfolk & Norwich Hospital Linac Accelerator

This project involved the expansion of world class radiotherapy facilities at the Norfolk & Norwich University Hospital.

The new build extension houses 2 linear accelerators within a reinforced concrete bunker, as well as an orthovoltage treatment room, consulting rooms, offices, waiting areas and a helipad.

Services included specialist cooling plant to the LINAC machines, heat recovery ventilation, medical gases, LED lighting, power, fire alarms, CCTV and access control.

A BMS system incorporates opening roof lights and the combined smoke fire dampers as well as the mechanical plant.
