Role: M&E Contractor

Main Contractor: Barnes Construction

Client: Kesgrave High School

M & E Consultant: Concertus

Architect: Concertus

M & E Value: £300,000

Kesgrave High School, Humanities Block

This project involved the expansion of facilities at Kesgrave High School to provide a new Humanities building and refurbishment of part of the existing school.

The new Humanities building includes bright learning spaces for students in the form of 8 classbases together with welfare facilities over two floors.

Bower Fuller worked closely with the Main Contractor and Consultants to provide new services for the project including new boiler plant and heating, new hot water generator, heat recovery ventilation and diversion of existing water and gas services.

New lighting, power & data services were installed throughout with fire, intruder and class change systems being extended into the new build area.
