Woodbridge Heritage Museum

Woodbridge Heritage Museum based near the Tide Mill in Woodbridge provides chronological historical displays tracing the evolution of Woodbridge from an Anglo Saxon settlement, to a medieval market town, port and ship building centre, a garrison town during the Napoleonic wars and on to its current status as a tourist destination. We took on the Principal Contractor role for the project on a design and build basis. Our responsibilities included forming new stud walls for the offices, installing new ceiling grids on the ground floor, and providing new electrical lighting and power arrangements throughout.

Role: D&B Principal Contractor

Client: Woodbridge Town Council

Value: Confidential
